## Dear Friends and Partners,

Did you have a good Thanksgiving; we sure did visiting with our daughter and grandson. There is so much to be thankful for in this volatile world we live in. We have so much to give to a world that is in great need.

## Being Friends with Refugees

One of the Strategic Church Network house churches has begun to make friends with several refugee families from Myanmar (Burma). These families just arrived in the USA a few months ago. This is such a strange country for them, and this house church is sharing the love of Jesus with these families. Teaching them English, helping them find jobs, assisting with the medical needs and showing them how to live here in the USA.

But more than that, these followers of Jesus have become best friends and even family to these Muslim refugees. Doing far more than could ever be done through an institution or program, go and spend time in the homes of these refugees, eating, laughing, and just being friends with them.

The amazing thing about this is that there are thousands of refugees in cities and communities here in the US, but they have very little contact with the Body of Christ. In fact, most churches only want to work with Christian refugees! Did you know that in 2008 that over 60,000 refugees came to our Nation for asylum. Most of these refugees come from areas of the world where it is very difficult to send followers of Jesus to love and serve them.

The Lord is bringing these least reached peoples to our cities so that those who follow Christ and his teachings will reach out to them and show his love to the strangers in our land.

Do you have refugees in your community? If so, this is a great opportunity to reach the nations without ever leaving home! If you need help let me know.

---

### **Making Inroads to the Unreached**

One of the leaders within Strategic Church Network has begun working to target one of the least reached people groups in North Africa called the Saharawi. He (name withheld for security reasons) had the opportunity to visit their refugee camps in Algeria in the midst of the Sahara Desert. There thousands from this people group who are separated from their home land and many of their countrymen. They have great needs in their refugee camps including difficult living conditions. This Muslim unreached people group has been living in these desert camps for over 30 years. All their food and water must be brought to them. Aid workers stay for only short periods of time due to visa restrictions and harsh living conditions. Would you pray for the Lord to raise up harvesters to go among this group and serve them? If you would like me information send me an email. For more information about the Saharawi go to: <http://www.gosahara.org/saharawi.html> and <http://www.joshuaproject.net/peopctry.php?rop3=108512&rog3=MO> .

Another couple called to an unreached people group in China are being sent out by Strategic Church Network. Their plan is to learn the language while teaching English in a strategic location. They plan on becoming legitimate business owners providing a service to the people group they are targeting. While serving them, they will then make disciples and see Matthew 24:14 fulfilled for this least reached group. If you would like to support this couple, let me know. For security reasons I have withheld their names, but if you are interested in partnering with them, they would be glad to talk to you further.

---

### **Websites Up and Running**

For the last few months I have been working on getting our websites updated. Our [House2Harvest Network](#) site is now fully operational and ready for you to use. I have also brought the [Strategic Church Network](#) up to date with the recent changes and launch of House2Harvest Network. Another site that I have responsibility for is for our training school to reaching Muslims ([South East Asia Institute of Intercultural Studies](#)). Take a few moments to view these sites and it may give you a clearer understanding of what we are doing.

---

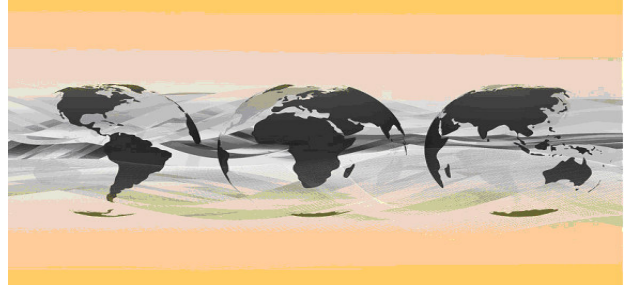

### **Looking Ahead to 2009**

We have great expectations for the next year. This year has in many ways been a year of preparation and gaining understanding regarding what the Lord wants us to do. We are attempting to lead our lives

based on the principle that we “only do what we see the Father doing.” Believe me, that is not as easy as it sounds! It’s much easier and convenient to just make plans and hope God will bless it. But those days of insanity are over. In light of that we have several things that we are looking forward to in 2009.

#### Mission Trips:

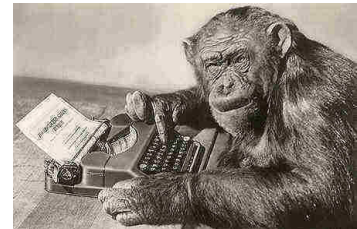

- South East Asia: At this point I hope to take a trip to South East Asia to attend a people group consultation for the largest unreached people group in the region and then spend some time at our training school. I then hope to minister in several venues and network with key leaders in regards to establishing the House2Harvest Network. This may take me into Malaysia, Indonesia and India, depending on how the Lord leads.
- Turkey: I also plan to take a trip to Turkey to meet with several key apostolic leaders for a strategic gathering in the ancient city formally known as Antioch. This will be a prophetic time of seeking the Lord together with a new kind of apostolic and prophetic leadership that the Lord is raising up in these last days. It will be a time of repentance, listening and acting on Jesus’ direction as he leads his Church in this final hour.

Networking Opportunities: Since the launch of House2Harvest Network the opportunity to network with others has increased. This will help us to accomplish those things that the Lord has placed on our hearts for many years. We look forward to what is in store these coming months.

#### Several Projects Underway:

- The “*Organic Missions Course*” which is being developed for Strategic Church Network. This will be a course for folks in simple/house churches and networks that are being sent by the Lord to go and reach the nations. I hope to have this course ready to go by mid 2009.
- We are writing our first book! In conjunction with one of our partners in Strategic Church Network (Steve Lyzenga) I will be co-authoring a book telling the story of House2Harvest. This book will be written to inspire and prepare simple/house churches around our nation to take the gospel where it has never been heard.
- I hope to be able to serve several house church networks by assisting them to take short-term trips to the unreached. These trips will be focused on intercession, research and humanitarian service. If you are interested, let me know!

Thank for taking the time to read our report, and thank you for your prayers and financial support. We consider it a great privilege to serve the Lord in this capacity, and our partners help make this happen.

Again, thank you!

**God Bless You!**
